MARYLAND PLEASED WITH CHAMP CLARK.

Missourian's Speeches Against Imperialism Will Benefit Democracy in That State.

MET GROSVERNOR IN DEBATE.

Maintained His Argument With Great Success-Maryland and Kentucky Will Probably Go Democratic.

REPUBLIC SPECIAL.

Sept. 1.-Representative Washington. Champ Clark has been spellbinding in Maryland during the last week. He visited Mountain Lake Park, at the top of the Alleghenies, and there addressed an audience of 4,000 persons on the dangers of imperialism. Clark's sprech was received with great enthusiasm and it will have its weight on restoring Macyland to the Democratic column. Sarewd political observers now count the State as certainly for Bryan and Stevensor. .he Republicans generally concede this result. The tendency of Maryland to Republicanism has been ephemeral, In recognition of it, President McKinley gave a Cabinet place to Gary; but the vanity of this appears to have been acknowledged soon afterwards. Charles Smith of Pennsylvania was selected to succeed Gary, and by the latter's displacement, the administration virtually admicted

that it had no hope of continuing his State in the Republican column. Champ Clark's methods as a campaigner are highly popular in Maryland. He en-tered the joint debate like an old stager. He wore a negligee shirt, a thin suit with-out a vest, and a collar that opened wide-ly as if to be free from wilting. Clark was scheduled to debate with Dollivar, the coming Senator from Iowa; but at the last moment the latter telegraphed Grosvenor of Ohio to substitute for him.

When Clark emerged from the train at the top of the mountains another statesman alighted, gripsack in hand. The two arrivals gazed upon each other with some stenishment. "Helio," said Grosvenor, "what are you

doing here, Champ?"
"How are you, General," was the an-"Dollivar cannot come," said the General,

"and I am here as his substitute." Standing in the mountain mists, the two

Standing in the mountain mists, the two oratorical gladiators exchanged records of where they had speat the time since the adjournment of Congress, and the usual reminiscences were indulged.

"Grosvenor," said Chark, 'the best speech I ever made in my life was when I had to tall Senator Vest's place unexpectedly may years ago. The chairman of the meeting sut lifeen minutes teiling the crowd what great disappointment was in store for them. That riled me, and I did my best, with a result that was satisfactory to all concerned.

best, with a result that was satisfactory all concerned.

The Maryland voters are enthusiastic. The speeches of both Grosvenor and Clark were heard with wild appiause. No score was kept of the points made by the adversaries, but by common consent the Democratic side of the debate was maintained with great success by Clark, and his enumeration of the evils of imperialism met with conthusiastic approval. with great success by Clark, and his enum-eration of the evils of imperialism met with enthusiastic approval.

Conservative politicians count Maryland and Kentucky both as almost certainly Democratic this fail. Even the Republicans do not claim probable success in either of these States.

de not claim probable success in either of these States.

The effect of imperialism upon the office-holders is shown by a statement prepared by the Senate Committee on Appropriations. This shows that during the present Congress there were 45 increases in salaries of Federal officials, making a total net increase of \$123.523. And in addition to this there were created \$6.65 new offices, carrying salaries of \$4.557.573, making a net increase of expenditures for Federal office-holders, incurred in one session of Congress, \$5.254.665.

When to this is added the

When to this is added the enormous amount of taxes collected under the war revenue act, an estimate can be made of the burdens of imperialism.

CHAMP CLARK ON THE STUMP. Enthusiastic Crowds Listened to Him

at Mineola and Montgomery City. REPUBLIC SPECIAL New Florence, Mo., Sept. I.—Champ Clark spoke at Mineola this afternoon and at Montgomery City to-night. He was greet-ed at both places by large and enthusiastic audiences. audiences. In his Mineola speech Mr. Clark devoted

audiences. In his Mineoia speech Mr. Clark devoted his remarks almost entirely to finance and trusts, declaring, among other things, that whatever measure of prosperity we are enjoying is proof of the correctness of the Democratic position of 1896 that prosperity rests on the quantity of basic money, whether gold or silver.

At Montgomery City Mr. Clark devoted his time almost exclusively to a discussion of importaism, denouncing it as unamerican, senseless and ruinous to our institutions. He predicted that the more it was discussed the more the American people would oppose it, and that unless the Republicans abandon it. Bryan's majority would take on the proportions of a land-side.

In speaking of the State ticket in his

silde.

In speaking of the State ticket in his Mineola speech, Mr. Clark said:

"With the Democratic record in Missouri, and with the splendid ticket nominated at Kansas City, we ought to sweep the State by an increased majority. A man who can't defend the Democratic conduct of affairs in Missouri is like Sut Lovingood's daddy, 'a natural-born darn fool.' There is nothing equal to it in the history of the world.

"In twenty-seven years the Democratic

world.

"In twenty-seven years the Democrats have paid off nearly that many millions of State debt piled up by Republicans in four years of misrule. In the second year of Alexander Monroe Dockery's gubernatorial term we will pay off, cancel, burn and destroy the last State hond—the last hateful evidence of Republican maladministration. We ought to celebrate that auspicious event with the most tremendous blow-out ever seen in this country, and Governor Dockery ought to declare the day on which the last Republican bend is burned to be a day of thanksgiving and Jubilation." As everybody knows, I was not for

Dockery for Governor; but he was nominated and new he is as much my candidate as he is anybody else's. I only repeat now what I have always said-toat he will make a thotop, conservative, business Governor; and Lee, Alien, Williams, Crow. Cook and Herrington will do as well as he will. All together, taken up one side and down the other, it is a very strong ticket and will make a fine race."

The large crowds listened to his addresses with untiring interest and left with enthusiasm for the ticket increased a hundred fold.

REPUBLIC SPECIAL.

Topeka, Kas, Sopt. 1.—National Republican Committeeman D. W. Mulvane, J. R. Burton's senatorial manager, has been shorn of his power.

It was announced to-day that all moneys committee the National Committeeman. This arrangement is unprecedented, because the National Committeeman for fifteen years has been the sole director of these funds, and through his management the money reached the State Committee. This year it is claimed that the National Committee will make all remittances direct to the chairman of the State Committee.

This plan is the result of a contest between the candidates for United States Senator. The Burton forces would have retained the influence created by the handling of the National Committee would, in the hinds of a Burton supporter, work injury to the cause of the copposition.

This new condition has been brought about, not by the perfectors of the money from the National Committee would, in the hunds of a Burton supporter, work injury to the cause of the copposition.

This new condition has been brought about, not by the influence of the managers of the Baker campaign, but by some of the men who are prominent in Kansas political affairs.

Senator Baker, after the subject had been presented to the National Committee head-quarters in Chicago, was called by telestram to Chicago for a conference upon the proposition, with the Republican managers.

REPUBLIC SPECIAL.

Carbondale, Ill., Sept. 1.—Some of the employes connected with the division office of the Illinois Central Railroad in this city, who are pronounced Democrats, believe that the meeting which is called for to-day in Chicago of the Railway and Telegraph Employers' Political League is simply an annex to the Republican political machinary and a nice way to secure votes for fianna's man for the presidency. They have their opinion as to the object of the meeting on the call which has been issued, which in part "is to ascertain the sentiment of railroad employes in regard to the present political situation."

Every Township.

REPUBLIC SPINCIAL.

Carbondale, Ill., Sept. L.—The Democratic County Central Committee of Jackson County has arranged for the Grganization of Democratic clubs in every township in the county. Already Murphysboro has a large and enthusiastic Bryan and Stevenson Club and there is talk of forming a club entirely of Republicans who will support the Democratic ticket. In this city a rousing meeting was held last night and addressed by G. A. Windle of Windle's Gatting Gun, at which time a club was formed. To-night some nine meetings were held in different townships and addressed by local speakers.

The work which is being done by the County Committee has never before been equaled in a previous campalga, and praises on all sides are heard for Chairman Etherton.

His address consisted largely of an attack on the Republican party in general and upon President McKinley in particular for his attitude on the army canteen and his course regarding the liquor traffic in Cuba and the Philippines."

casion, when R. C. Kerens was singed by condition has been brought the delegates from his own State. He first attempted to run the campaign in Missouri without Kerens's assistance. It was all right until he set the date for the opening of the campaign at Sedalia for September i. Then there was a clash,

A week before the time things began to shape themselves up into a very bad tangle. Kerens was playing tag with Akins, and Akins knew it. He couldn't be "It," and to have set the date and then be forced to postpone it was more than he could stand. The publication in The Republic that stand. The publication in The Republic that the date would be postponed, or the meeting called off, was a source of worry to the State chairman. He did not like the truth to become known for obvious reasons. When at last he was forced to postpone the meeting until September 4 the humiliation was too much for the chairman of the Repub-lican Committee. He staiked around the rooms in the Lindell breathing vengeance on the head of Kerens, who was in the National Committee headquarters in Chicago.

Akins Awfully Agitated. If the Sedalia meeting is a failure, as seems probable, the responsibility will rest on Chairman Akins, lie is aware of this and for the last week he has been busy drumming up a crowd to attend the meet-ing. In order to give it more official recog-nition the State Constitution. ling. In order to give it more official recog-nition the State Committee has been called to meet on the same date at Scialita. That an entire Sinte Committee should be called together at such a late day, when the Cam-paign Committee has been selected to con-duct the affairs of the canvass is something unprecedented.

The State Committee seems to have trou-The State Committee seems to have troubles of its own outside the Sedatia meeting. Without the assistance of the National Committee the treasury is "going to grass," metaphorically speaking. It is said that Colonel Flory, who is charging around over the State on Fullman sleepers, has been forced to appeal for assistance outside the State Committee. A friend who did not desire to see the campaign cease suddenly is said to have advanced \$50 to keep it going a white longer. In this connection the fact that the State Committee has no treasurer is in itself a strange proceeding. C. P. Walbridge, who has acted as treasurer for the last four years, refused to stand for the place spain. If it is filled it was by no official action of the committee. Mr. Walbridge is said to have had enough of Mr. Akins's management and he does not propose to accept the empty title again with an empty cept the empty title again with an empty treasury.

What Bell Did.

What Bell Did.

In this connection Chauncey I. Filley takes exception to the statement that Lee D. Bell of Neosho had solicited funds for the State Committee four years ago. At that time Mr. Filley was chairman of the committee. Mr. Filley was that neither Bell nor any one else was authorized to receive money, nor did the committee get any from Federal officeholders in 1896.

He was deputed in 1896 and 1894 by the officeholders in 1896.

He was deputed in 1893 and 1894 by the Warner-Hall-Blake-Pearce managers of the 1893 State Committee to collect the pro rata of a \$3.000 deficit of that committee, of which he was one.

The lack of harmony throughout the State in the Republican party was never more apparent than it is to-day. With so many different factions fighting each other bitterly, for it has grown to be a most bitter feeling, the effort to holster up the party has become so bold that it is laughable. Even the stadd party organs which have heretofore printed as near the truth as possible are now while chamoring in the most unblushing falsehoods that the State will go Republican this year. The lack of harmony throughout the State

Dockery and Mr. Alschuler.

Doctor E. A. Watson, chairman of the Blinois State Democratic Committee, called at the local State headquarters yesterday on his way home from Chicago.

Doctor Watson had a short conference with Mr. Seibert, in which he suggested that it might be a wise move for the gubernaterial candidates on the Democratic ticket in Hinois and Misseuri to "swap" States occasionally during the campaign. He suggested that Mr. Dockery be given a date or two over in Hinois to address the Democracy on national issues, while Mr. Alschuler was performing a like service over here in Missouri. The suggestion was favorably received by Mr. Selbert and Secretary Edwards, who probably will place the matter before the Executive Committee for that body's consideration. Dailas, Tex., Sept. 1.—The State Committee of the Middle-of-the-Road Populists met here to-day for the purpose of filling three vacancles on the State ticket, for Governor, Treasurer and Superintendent of Public Instruction, caused by the withdrawal of Jerome Kearby of Dailas, Pat Clark of Clarksville and Reddin Andrews of Belton for the offices in the order named above. The committee was in session all day and adjourned to-night without having made any nominations. Various names were discussed for each position, but the committee was not sure that the men selected would accept. A subcommittee of five, with Milton Park of Dailas as chairman, was appointed to see the various candidates and learn positively that the men to be placed on the ticket will accept the places tendered them, the subcommittee to report to the full State Committee.

Mr. Park said tenight: "This subcommittee may be able to report next week, or it may require longer time. A report will surely be made within the next twenty days, and there need be no doubt that a full State ticket will be put in the field and kept there to the end of the campaign."
